GOES

GOES

from nature

to furniture

From nature to furniture.
From furniture to magic.
This is how it GoEs.

ABOUT

GoEs is an award winning design oriented manufacturer transforming solid wood and sustainable materials into contemporary furniture. Our products are pushing the boundaries of what is possible when it comes to natural materials. Upgrading classical carpentry techniques with cutting edge technology enables us to bend the wood in new ways and produce little wooden wonders.

ABOUT

GOES

from dream

to reality

Our name GoEs is an old greek word for magic and magic is just another word for the unbelievable, the extraordinary, the incredible. It's a word that best describes our products. We challenge our designers and engineers to create something that will leave the design community wondering how and our customers saying wonderful. We ask them for a little magic, that's how we create GoEs.
